

Shaun the Sheep MOVIE

IN CINEMAS 2015

MAKE YOUR OWN SHAUN THE SHEEP DESK BUDDY!

INSTRUCTIONS

- 1.**
Choose the character you would like to make from the template pages and print onto sturdy paper.
- 2.**
Cut carefully around the edge of the template, plus any heads and arms that you need. Make slits on the body for the arms and legs where shown. Be careful with sharp scissors—ask a grown up for help.
- 3.**
Once your template is cut out, fold the paper along all the lines to create a box shape and use the white tabs to stick the box together.
- 4.**
Attach the arms and legs by placing them through the slits you have created and stick them in place with glue if needed.
- 5.**
Once you've finished your characters use them to decorate your desk, shelves, computer, or anywhere else you can think of! You could even make extra paper accessories to customise your characters!
